MEMORANDUM FOR: Executive Director, NPIC
Assistant for Operations, NPIC

THROUGH: Chief, Collateral Support Division, NPIC^①

SUBJECT: COMOR Photo Working Group Meeting of 17 November 1964

Items completed and/or discussed.

1. Biweekly update of Cuba.
2. Review of [] with a discussion of the feasibility of utilizing the T-29 and the C-97 in lieu of committing a U-2 and a carrier to obtain satisfactory coverage.
3. NRO requested the CPWG to set new priorities on the "holiday" areas in the USSR and China. This will be on the agenda for 24 November 1964.
4. CPWG will ask the COMOR Committee to request field units to include COMOR numbers in their readouts.
5. The CPWG was directed by Mr. Reber to determine the "urgency" of exploiting a mission. (See COMOR M-180, page 7, item 10). Specifically, the request was directed to determine whether overtime was warranted at the processing site. However, the word "readout" is also included. It is possible that NPIC could also be involved in this development.
